Kiss Me

Danni Carlos

You say "It's not so easy"
She says "It's not too bad"
You give a little love and it comes right back like the best you've had
She whispers, "Are you lonely, cause I'm lonely too"
But I know that you'll never be right for me
I know that you'll never be right for me, still I wanna kiss you
Kiss me now, just kiss me now
Kiss me now, just kiss me now
Kiss me now the time is right
Kiss me now then say goodnight
You're lookin' so good now
Its been a long, long time
And though I should bite my tongue, I can't, I wanna make you mine

Does he know you like I do?
Because I really do
And though I know you'll never be right for me, still I wanna kiss you
Kiss me now, just kiss me now
Kiss me now, just kiss me now
Kiss me now the time is right
Kiss me now then say goodnight
Would you kiss me once in the sunshine
Would you kiss me twice just for old times?
Kiss me now, just kiss me now
Kiss me now, just kiss me now
Kiss me now the time is right
Kiss me now then say goodnight
