

I Found a Way (feat. Aubrey Peeples)

Nashville Cast

I found a way not to think about it
Open up a bottle pour it in a glass
I can make it disappear if I drink real fast
I found a way not to think about it I found a way to hide all my crying
Jump in the car step on the gas
and drive like the devil with Jesus on his back
I found a way to hide all my crying and most days most of the time
It seems to work out just fine I found a way not to miss someone
Write down all the bad put it in a book
and read it everyday like a good girl should
I found a way not to miss someone
