

Lovely Intermission

Yuna

I've been really uninspired
I think I need a miracle To believe in love
I never really gave it all
To believe in love
I needed something more [Chorus]
You're my lovely intermission
You're the one that I've been waiting
Waiting for you
Waiting for you... You're my lovely intermission
I can feel that something's missing
Before I found you
Before I found you Always being on my own
(Want to be alone)
(I just want to be alone)
Never needed anyone
(Needed anyone) To believe in love
I used to think I had it all
To believe in love
I needed someone to adore [Chorus]
You're my lovely intermission
You're the one that I've been waiting
Waiting for you
Waiting for you... You're my lovely intermission
I can feel that something's missing
Before I found you
Before I found you You're my lovely intermission (x8)
