

Fail

Hades

Grab the good times while and when you can
They are few and far between
Simply glitches, lapses in the gloom
This I know, this I've seenThe darkness prevails
It wins without fail
Can't care anymore, but when I am
With you it all seems fineGrab the money, run off far away
Your problems you'll escape
What does success mean to enslaved clones?
The world is all theirs to rape
In darknessTake these words I spill onto this page
All ideas are now on sale
You can't enjoy wealth
All alone in a cage
