Lady In Black

Mercyful Fate

On a magical misty morning
I was standing in the autumn rain
Suddenly the birds fell silent
Would I ever hear them sing again?
Hear them sing againWithout a word of warning
I saw a shadow in the autumn rain
Just like in my nightly dreams
The lady in black had come again
The lady had come againBegging me to follow her
Into the misty rain
Begging me to follow her
Into the no more painHer eyes were hypnotizing
Burning deep inside my brain
The lady in black was here now
She was here to take me far away
Take me far awayFollow me to the other sideThrough the tunnel of light we travel
Fading away
Through the tunnel of light we travel
We're fading awayThrough the light that's shining bright
We're fading away
Through the light that's shining bright
We're fading away
