

Not Ur Girl

Katharine McPhee

From the first time I saw you, well, I thought that we'd be cool
But I overestimated this boy
(You boy, you boy)
'Cause we started out as friends and I thought that'd never end
Even when we turned into more And we moved into the fast lane
Oh, we just collided in the fast lane
And even though we tried it, we got no place
And there's no goin' back for us now, no way
I think it's time we set things straight, 'cause I'm not ur girl
Don't be confused because you see me lookin' at you
No baby, I'm not ur girl
And I'm not leaving with you just because you asked me to, no, no I know you want me but it's just too late
Don't try and stop me or get in my way Don't you look at me like that, it don't matter how you act
You and me are now in the past
And when I see you walkin' by, don't be surprised if I say, "Hi"
But it won't be anymore than just that Not movin' down the fast lane
Oh, we just collided in the fast lane
Even though we tried it, we got no place
And there's no goin' back for us now, no way
I think it's time we set things straight, 'cause I'm not ur girl
Don't be confused because you see me lookin' at you
No baby, I'm not ur girl
And I'm not leaving with you just because you asked me to, no, no I know you want me but it's just too late
Don't try and stop me or get in my way
I know you want me but it's just too late
Don't try and stop me or get in my way You should've thought about the way that you treated me
You should've thought about the things that you said to me
I should've walked away the first time I saw your face
Was so distracted, nearly lost it in the fast lane I'm not ur girl
Don't be confused because you see me lookin' at you
No baby, I'm not ur girl
And I'm not leaving with you just because you asked me to, no, no You know you want me but it's just too late
Don't try and stop me or get in my way
I know you want me but it's just too late
Don't try and stop me or get in my way
Don't you try to get in my way
