Exiled

Judas Priest

I must leave from fear they send
Journey with the dawn
As i take the winding road
Bow my head forlorn
Now i must go

I'm banished in exile
I wander this land
No faith in the future
I'm in their command

Cross over the mountains
and valleys so wide
I walk as i wonder
With hope by my side

All my friends are far away
How i miss my home
Where do i find peace of mind
Guide me as i roam
I cry for you

I'm banished in exile
To meet their demand
Rejected messiah
They don't understand

I'm searching for something
That's lost in my heart
God knows I'm a sinner
I'm falling apart

If this is my destiny
I've got to believe
The passion inside me
Has left me to bleed

I'm banished in exile
I wander this land
No faith in the future

I'm in their command

Cross over the mountains
And valleys so wide
I walk as i wonder
With hope by my side

If this is my destiny
I've got to believe
This passion
Inside of me
Has left me to bleed
