Life Of The Party

Charlie Wilson

Tonight your in for a special treat
I brought you roses just to sweet you off your feet
Oh they'll be plenty of time for us to make love
But how about first we celebrate whats up

How does this sound
The city is ours
Let's take it downtown
To your favorite spot
Don't try to hide your smile
Let's go all out
The way we always do when we're together
Don't waste no time let's go
Now girl

Put on the dancing shoes tonight
Slip on the dress the one I like
All eyes on us cause we are the life of the party baby yeah
Sip a little something to break the ice
Glass in the air we're feeling nice
On the dance floor we're the life of the party baby yeah

Girl (girl)
The way we move
Nobody does it better
And under the moon and stars
I could stay like this forever
With you girl
When the D.J. play our song
We got together
And show them how it's done

Put on the dancing shoes tonight
Slip on the dress the one I like
All eyes on us cause we are the life of the party baby yeah
Sip a little something to break the ice
Glass in the air we're feeling nice
On the dance floor we're the life of the party baby yeah

Off we roll to the middle of the floor

Do your thing now do your thing girl
Off we go to the middle of the floor
Life of the party hey hey
Off we go to the middle of the floor
Do your thing now do your thing girl
Off we go to the middle of the floor
Do your thing baby

The way we move
Nobody does it better
Under the moon and stars
I could stay like this forever
With you girl
When the D.J. is play our song
We got to get up
And show them how it's done

Put on the dancing shoes tonight
Slip on the dress the one I like
All eyes on us cause we are the life of the party baby yeah
Sip a little something to break the ice
Glass in the air we're feeling nice
On the dance floor we're the life of the party baby

Put on the dancing shoes tonight
Slip on the dress the one I like
All eyes on us cause we are the life of the party baby
Sip a little something to break the ice
Glass in the air we're feeling nice
On the dance floor we're the life of the party baby yeah

Off we go, onto the floor, life of the party baby
