

Roll Over Lay Down

Status Quo

When I got home that night early one morning
Seeing the note written in ink pinned to the door
Taking a drink cool from the fridge, from the table
I drank a toast, you were the most the night before
Roll over, lay down and let me in
Roll over, it's a long way where I've been
Roll over, lay down and let me in
Roll over, lay down
When I get home tomorrow night after this morning
Show me the care you showed in the note the night before
Maybe I won't take a drink from the table
Reckon I'll lay me straight down the floor
Roll over, lay down and let me in
Roll over, it's a long way where I've been
Roll over, lay down and let me in
Roll over, lay down
When I get home tomorrow night after this morning
Show me the care you showed in the note the night before
Maybe I won't take a drink from the table
Reckon I'll lay me straight down the floor
Roll over, lay down and let me in
Roll over, it's a long way where I've been
Roll over, lay down and let me in
Roll over, lay down
