

Minetta Lane (LP Version)

Tommy Page

In the middle of the village
On a cold winter night
The only street around
With no one in sight
I kissed you on your face
A tear drop came
There on Minetta Lane I remember it like it was only yesterday
It's so strange how time slips away
Been so long since we felt the flame
There on Minetta Lane Whatever happened to love sweet love
Did it fade away and die
My heart still cries for you, longs for you
This song's for you
Wherever you are tonight [Repeat: x 2]
In the middle of the village
On a cold winter night
Only street around
No one in sight
I'll never walk that street
'Cause it's not the same
Without you on Minetta Lane
