Blue

Lasgo

No one else can touch me Like the way you do Nothin' seems to hurt me When I am close to youAnd I hope that we Can spend our lives together I truly wish That this could last forever For you and meAnd when you cry tears keep on fallin' I still feel your love for me is true And when you cry tears keep on fallin' I can see that you are feelin' blue For me and you For me and youNo one else can touch me Like the way you do Nothin' seems to hurt me When I am close to youAnd I hope that we Can spend our lives together I truly wish That this could last forever For you and meAnd when you cry tears keep on fallin' I still feel your love for me is true And when you cry tears keep on fallin' I can see that you are feelin' blue For me and you For me and you
