

Kings of the Nordic Twilight (edit)

[Luca Turilli](#)

Ille dies fastus
Fastus est per lege
Per quem lege lice
Licebit agi
Studia nostra nostrae
Nostrae naturae re
Regula metiamur
Naturae regula
Cruor signaverat
Signaverat herbam
Innocentium cruor
Domine domine
Propemodum saecul
Saeculi res in un
Res in unum diem
Fortuna cumulat

Quis tam animo agresti fuit ut non commoveretur?
Tu te dictis praebere me
Dictis praebere memento
Luna solis lumine collustratur

Mors morte pianda est
Soon the dew of morning filled all the silent wood
And when the sunbeams kissed his face
He opened his so lucky eyes in front of him the oak
The whispers of the river the freshness of the dawn
Oh, my god, where was I...

A land where my dreams rule
Where hopes of victory become reality for every man
That hardly raised the steel

The fight for peace of reign is so won once again
Warriors, battles, swords of steel and magic, tragic destinies

Glory, pride and honor for my will for justice everywhere

I can't believe what I have seen there in that fantasy world of mystery

Many warriors and kings, golden swords of steel all united for victory

I speak to you for the last time before we ride to the sun

I could survive in your proud heart 'cause you are now one of us!
We are the kings of the nordic twilight

We are the lords of ice and snow

For the glory we will fight

For the peace we'll ride

For the skies we'll reign together
He felt on his knees having heard the holy words

And moved by the honor so...

"oh, no lord too much for me I still cannot believe,
 the chance you gave to me is so great... I am a blessed man!"
 Convinced of all the power of what true love can do
 And while the whispers of the brave began to fade
 He understood life wouldn't be the same,
 With all emotions of today he would have found his way
 Warriors, battles, swords of steel and magic, tragic
 destinies
 Glory, pride and honor for my will for justice everywhere
 I can't believe what I have seen there in that fantasy world of mystery
 Many warriors and kings, golden swords of steel all united for victory
 And at last also I know truly what love can do
 So try to live at your best and ride from the sun to the moon
 We are the kings of the nordic twilight
 We are the lords of ice and snow
 For the glory we will fight
 For the peace we'll ride
 For the skies we'll reign together"... And finally the silent woods of Valdaran greet the fierce battalion.
 Victory rides in the heart of all nature... and light and shadows play all over the land
 Before the lord of twilight gives the knights a deserved rest... "Along the border between earth and hell...
 May now your kingdom prevail! I speak to you for the last time before we ride to the sun
 I could survive in your proud heart 'cause you are now one of us!
 And at last also I know truly what love can do
 So try to live at your best and ride from the sun to the moon
 We are the kings of the nordic twilight
 We are the lords of ice and snow
 For the glory we will fight
 For the peace we'll ride
 For the skies we'll reign together
 Cruor signaverat
 Signaverat herbam
 Innocentium cruor
 Domine domine
 Propemodum saecul
 Saeculi res in un
 Res in unum diem
 Fortuna cumulat
 Quis tam animo agresti fuit ut non commoveretur? Domine, domine
 Gloria perpetua
 Raise high your steel friends, because evil is riding now
 Along the border between earth and hell...
 May now your kingdom prevail!
