

Whatever

Tinfed

Whatever you want to see
Whatever you decide to believe
Whatever you say or you think
Whatever you know I'll agree I feel you slipping
I watch you fading
I cannot hold you now
You're on your way down Whatever you passed on to me
Whatever you decide you'll plead
Whatever you say or you feel
Whatever this [is], [this] is unfair Get it right
It's severe
There's so much being done up here
And we think we're so serious
Well, I just take what I can up here
