

# Somebody up There Likes Me

## Reba McEntire

I can't get used to the hustle  
I try to keep my actions straight  
I get caught in the bustle  
I do things I really hateJust when I think I'm sinking  
I hear a voice inside my head  
Says, "Don't do what you're thinking  
Send your thoughts to me instead" Somebody up there likes me  
Somebody up there knows what I need  
And when my worldly head spins around  
He sends His love downYou know I'm only a human  
That's what I always say  
It's just excuses  
So I can do things my own wayBut, when I fall and I stumble  
I know I will be saved  
No, my world won't crumble  
I'll make it through the hardest daysSomebody up there likes me  
Somebody up there knows what I need  
And when my worldly head spins around  
He sends His love downI wish I'd known all along  
But it's much better late  
Than to never  
Know you're wrongSomebody up there likes me  
Somebody up there knows what I need  
When my worldly head spins around  
He sends His love downSomebody up there likes me  
Somebody up there knows what I need  
When my worldly head spins around  
He sends His love downHe sends His love down  
Somebody up there likes me
