

# Security

Vanessa Williams

Sometimes it's hard when I don't know  
Where you're going or where you've been  
I got a broken heart, surely  
If you let me know you care for me  
My heart will mend Darling, I can't wait forever  
You've got to let me know or let me go  
(Let me go)  
All I'm saying is you can't keep playing with  
A heart that loves you so Security, that's what we need, to keep our love strong  
Security, don't make me wait to long  
Security, you gotta let me know if this is what you want  
Security, don't keep me hanging on I'm sure you know  
If you take the time to think about it  
You will realize honey, now not too long ago  
I used to play around but that's all over  
You're my only guy Re-evaluate this situation  
Better check out your priorities  
You've got to get it straight  
No hesitation, if what you want is me Security, that's what we need, to keep our love strong  
Security, don't make me wait to long  
Security, you gotta let me know if this is what you want  
Security, don't keep me hanging on Security, that's what we need, to keep our love strong  
Security, don't make me wait to long  
Security, you gotta let me know if this is what you want  
Security, don't keep me hanging on Darling, I can't wait forever  
You've got to let me know or let me go  
(Let me go)  
All I'm saying is you can't keep playing with  
A heart that loves you so
