Supershooter

Fu Manchu

This is what you needed, babe how too
This is what you need
This is what you needed, babe how too
This is what you needKeep right had so, slow motion roll
Seein' for yourself, layin' low o' well
Split the road in two, still more to do
It's goin' on and on, it's goin' on and onThis is what you needed, babe how too
This is what you need
This is what you needed, babe how too
This is what you needI heard the sound, goin' 'round
I transfixed mine, a more every time
Hands ten and four, got to get more
Easy ridin' down, final highway bound
