One Night

Timeflies

[Verse 1:]
Where are we now
I cant come down
Im dreaming
And they scream so loud
I dont know how
Im breathing[Chorus:]
I need one night, to get away from it all
I need one chance, dont let me fall
I need one life, to get lost in the sound
Just for one night, I dont wanna be found
I dont wanna be found
(I need one night, one night)
(I need one night, one night)
I dont wanna be found.[Verse 2:]
So far from real
But I want to feel
You near me
Were moving still
And I wonder will
You hear me?[Chorus:]
I need one night, to get away from it all
I need one chance, dont let me fall
I need one life, to get lost in the sound
Just for one night, I dont wanna be found
I dont wanna be found
(I need one night, one night)
(I need one night, one night)
I dont wanna be found.[Hook:]
My hearts beating too fast
We wouldnt want it to slow
Still we can make it to last
Were perfectly out of control
One touch, with that one mind
On this one stage and this one mic
Were all one heart in this one world
So all we need is just one night[Chorus:]
I need one night, to get away from it all
I need one chance, dont let me fall

I need one life, to get lost in the sound
Just for one night, I dont wanna be foundI need one night (Im dreaming)
I need one night, I need one, one, one, one
One night (Im dreaming)
I need one night, one night
I dont wanna be found
