

# One Night

## Timeflies

[Verse 1:]

Where are we now

I cant come down

Im dreaming

And they scream so loud

I dont know how

Im breathing[Chorus:]

I need one night, to get away from it all

I need one chance, dont let me fall

I need one life, to get lost in the sound

Just for one night, I dont wanna be found

I dont wanna be found

(I need one night, one night)

(I need one night, one night)

I dont wanna be found.[Verse 2:]

So far from real

But I want to feel

You near me

Were moving still

And I wonder will

You hear me?[Chorus:]

I need one night, to get away from it all

I need one chance, dont let me fall

I need one life, to get lost in the sound

Just for one night, I dont wanna be found

I dont wanna be found

(I need one night, one night)

(I need one night, one night)

I dont wanna be found.[Hook:]

My hearts beating too fast

We wouldnt want it to slow

Still we can make it to last

Were perfectly out of control

One touch, with that one mind

On this one stage and this one mic

Were all one heart in this one world

So all we need is just one night[Chorus:]

I need one night, to get away from it all

I need one chance, dont let me fall

I need one life, to get lost in the sound  
Just for one night, I dont wanna be found I need one night (Im dreaming)  
I need one night, I need one, one, one, one  
One night (Im dreaming)  
I need one night, one night  
I dont wanna be found
