Butterflies

Princess Nyah

My sole is open, Hearts on the line
I've not control feelings, I cannot hide,
See ye, feeling you, feelin your mind
I've met my match, and you're one of a kind
So just let me know, baby, baby
Let me know, baby, baby
So just let me know, baby, baby
I wanna know, I need to know now
Can I baby, baby someday you confirm me you way
Can I baby, I close my eyes when you're right by my side
Gimme butterflies, over and over and over again
You gimme butterflies, over and over and over and overMy sole is open, Hearts on the line
Cards aren't disabled, why won't you be mine
Have you got the glow, if so I leave you behind
But I can't let go, you were so hard to find
So just let me know, baby baby,
Just let me know, baby baby,
I wanna know, I need to know now
Can I baby, baby someday you confirm me you way
Can I baby, I close my eyes when you're right by my side
You gimme butterflies, over and over and over again
You gimme butterflies, over and over and over and over..
.....
Can I baby, baby someday you confirm me you way
Can I baby, I close my eyes when you're right by my side
You gimme butterflies, over and over and over again
You gimme butterflies, over and over and over and over..
You gimme butterflies... You gimme butterflies
