

The Coming of War (Live Bonus)

Absu

Evil summoned to war
Eternal conquest for power
Gathering armies of death
To fight and kill at will Sinister weapons of war
Piercing metal and man
Warriors mounted on steeds
Ride out into the mist Awaiting the signal to attack
Swords clash and men fall to their death
Aimless pawn only to die by my hand
Battle cry blood stains upon his chest Endless, eternal pain
Thousands die for a king
Wretched, weary souls
Raging battle never ends Hatred inflicting death
Destroying the weak at heart
Eternity becomes less
War has drawn to an end Overthrown the emperor falls in defeat
Great halls crack and decay with neglect
Dethroned he cries out in vengeance
Impaler mark is words of death Shadows crusades of the past
Triumph through the fog
Sunsets drip into dusk
Flows like blood on my blade Massacre the feckless breed
Dismiss all empty thrones
Riding, beyond the clouds
Damnation ends in despair Awaiting the signal to attack
Swords clash and men fall to their death
Aimless pawn only to die by my hand
Battle cry blood stains upon his chest
