

# Hello Summertime

## Bobby Goldsboro

Birds and bees and all the flowers and trees, fishes on the line  
Girls and guys and yellow butterflies singing hello summertime  
A homemade boat and a river to float nothing on our mind  
Summer moon above two people in love singing hello summertime

Summertime laying back in the sun, yes summertime having summertime fun  
It's a time for two just me and you and the summertime  
Swing from a limb drop in for a swim, hey the water sure looks fine  
Ain't nothing wrong just floating along singing hello summertime

Summertime grins, lots of good friends we're all feeling fine  
Watch the sun go down, hear the summer sounds singing hello summertime  
Summertime laying back in the sun, yes summertime having summertime fun  
It's a time for two just me and you and the summertime
