Hold On

Deep Jahi

hold on, hold on, (aiii)
hold on, hold on (deep jahi)
hold on, hold on (just a little bit a word of inspiration)
keep on, deep jahi

woke up to disappointment again
the land i thought was fertile is barren
its like me cant get nothing right, so instead me write with a pen
struggling nuh nice so me work out
every day and night so the work grows
exercise me right for my share and still it nuh work out
me almost turn from the mission
buck up ina stern competition
the praying failure just began

---

me learn fi stand firm ina the gideon
