

# Hold On

## Deep Jahi

hold on, hold on, (aiii)  
hold on, hold on (deep jahi)  
hold on, hold on (just a little bit a word of inspiration)  
keep on, deep jahi

woke up to disappointment again  
the land i thought was fertile is barren  
its like me cant get nothing right, so instead me write with a pen  
struggling nuh nice so me work out  
every day and night so the work grows  
exercise me right for my share and still it nuh work out  
me almost turn from the mission  
buck up ina stern competition  
the praying failure just began

---

me learn fi stand firm ina the gideon
