

Wolves

One Direction

I hear them calling for you
I hear them calling for you

I feel the waves getting started
It's a rush inside I can't control
Your eyes keep pulling me in
I know, I know, I know
Your friends all talking 'bout me
They say I got no chance at all
Your fire is burning deep
In my soul, my soul, my soul

I ain't up for debating
Ain't enough for the taking
You got the whole shaking

In the middle of the night when the wolves come out
Headed straight for your heart like a bullet in the dark
One by one, I gotta take them down
We can run and hide, ain't goin' down without a fight
I hear them calling for you
I hear them calling
In the middle of the night when the wolves come out
Headed straight for your heart
They come straight for your heart
I hear them calling for you
I hear them calling for you

I keep on holding tight now
Cause your body's telling me don't let go
We are gonna be starting up trouble
I know, I know, I know
Just bringing my demons out
More than ever now
Your beauty could start a war
As you walk in the door

I ain't up for debating
Ain't enough for the taking

We got the whole shaking

In the middle of the night when the wolves come out
Headed straight for your heart

Like a bullet in the dark

One by one, I gotta take them down

We can run and hide, ain't goin' down without a fight

I hear them calling for you

I hear them calling

In the middle of the night when the wolves come out
Headed straight for your heart

They come straight for your heart

I hear them calling for you

I hear them calling for you

I wish it wasn't true

But the whole world's tryna get a piece of you

And my heart keeps fighting in this battle of fools

Gotta make it through, gotta make it through

In the middle of the night when the wolves come out
Headed straight for your heart

Like a bullet in the dark

One by one, I gotta take them down

We can run and hide, ain't going down without a fight

I hear them calling for you

I hear them calling

In the middle of the night when the wolves come out
Headed straight for your heart

They come straight for your heart

I hear them calling for you

I hear them calling for you
