Heavy Rain

Normand Corbeil

Heavy rain, lightning too
Heavy rain, when I'm with you
Seems like a thousand years
Since we both felt free
We've seen a million faces
All staring at you and me
But just like humphrey bogart said
Before he passed out on his bed
Here's looking at you kid
And the rocky road aheadHeavy rain, lightning too
Heavy rain when I'm with you
You know the thunder comes like a lion's roar
But it leaves me now
When you walk out the door
Listen to that northern wind
It's singing a sad old song
A melody so sick and tired
Been blowing much too long
Ain't it time to feel the weather change
You know it's overdue
Love is gone, we can't go on
Pretending old is newRain downAnd the daylight comes
As a sweet surprise
Heavy rain
Filling up my eyes
Heavy rain
