The Voyager

Starflyer 59

You keep pulling me
Left me with the doubt
You don't worship me
You leave me outThings never happen
Because, because, because
Because, because, because
I'm the voyager, I'm the voyager, watch outYou keep pushing me
It's just rock and roll
Just leave me out
Or think you never happenedThings never happen
Because, because, because
Because, because, because
Because, because, because
Because, because, becauseThings will all work out
Things will all work out
Things will all work out
Things will all work outWith the voyager, voyager, voyager
Watch out, watch out, watch out
