

Catastrophe (Acoustic)

Four Year Strong

You're always running around with everyone else but me
You're such a catastrophe
Hold on, you've been running for, oh, so long
And soon I'll be gone You've got to build it up and then break down
Give it a taste and drop your jaw to the ground
Then you'll know what to do and we'll pick it up
Pick it up and give it right back to you Save your breath and get down with me
I never thought it would be this easy
To spread you like a disease
In this heat, you'll be sweating out your dignity
You'll always be such a catastrophe I've been making a list of all your so called big plans
And I'm really having trouble
'Cause it's longer than the space of my attention span
Wait, what were we talking about again You've got to build it up and then break down
Give it a taste and drop your jaw to the ground
Then you'll know what to do and we'll pick it up
Pick it up and give it right back to you Save your breath and get down with me
I never thought it would be this easy
To spread you like a disease
In this heat, you'll be sweating out your dignity
You'll always be such a catastrophe And how about yourself and do you have what it takes
To raise the stakes and show, that you have it in you
To just pick up and go Give me a reason just to see things through
Until the end because I'm on to you
I'm going to need a shovel to dig myself out of this one Save your breath and get down with me
I never thought it would be this easy
To spread you like a disease
In this heat, you'll be sweating out your dignity
You'll always be such a catastrophe Save your breath and get down with me
I never thought it would be this easy
To spread you like a disease
In this heat, you'll be sweating out your dignity
You'll always be such a catastrophe
