Forgive the Silence

Novice

Forgive the silence but your reasoning is fought
This is the only thing you know but you're not making sense at all
You could end this now if you would just let go
Of the things that keep you safe, that keep you covered from the sunYou're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel alive
You're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel aliveLet's get this straight before you're gone
So I can say the things I feel
Will you hear me out this time?
Or will I talk to the same wall?
Cause god knows you're not this way
You're just held down by all the things that you've been through
So here's your chanceYou're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel alive
You're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel aliveLet's break the silence with one word
A word to say you're sorry
I think that's all I need to hear
Cause you've been holding back so long
It's never easy when you're on your own
Everything you're searching for is hereYou're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel alive
You're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel, make you feel aliveYou're only safe when you're running from me
You're only sane when you're speaking your mind (make you feel alive)
Your drugs are the only thing that make you feel, make you feel alive
You're only safe when you're running from me
You're only sane when you're speaking your mind
Your drugs are the only thing that make you feel
