

In You I'm Lost

Plastic Flowers

Your sense's calling you to leave,
Your sense's calling you to say what you dream and where you hide from the ghostComplications, inspirations
leave me beYour sense's calling you to leave,
Your sense's calling you to say what you dream and where you hide from the ghostComplications, inspirations
leave me be,
I never meant to hurt anything you love,
Sit with me enjoy endless flights (x2),
I'll disappear in the haze
