Think

Drowning Pool

Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Before you're led off to the slaughter you oughta
And just before you fade out to
I will hold a place for you
Do you remember when we used to
Do you remember when you used to
Do you remember life
Well, as you're led out to the slaughter, you oughta, yeah
Think about your life you wouldn't give it up
Think about your life you wouldn't give it up
Think about your life
Before you're led off to the slaughter, you oughta
And just as soon as you will find
That all of this became your life
Do you remember when we used to
Do you remember when you used to
Do you remember life
Before you're led off to the slaughter, you oughta, yeah
Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Before you're led off to the slaughter, you oughta

Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Before you're led off to the slaughter you oughta
And just as soon as all of this so, all of this so
No, no, no, no all of this so pure
Think about your life you wouldn't give it up
Think about your life you wouldn't give it up
Think about your life
Before you're led off to the slaughter, you oughta
Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Before you're led off to the slaughter you oughta

Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Before you're led off to the slaughter you oughta
Think about your life, you wouldn't give it up
Think about your life, you wouldn't give it up
Think about your life
Do you ever stop, think
