

# I Could Be Good for You

Taylor Dayne

Lots of eyes they look at you and lots of arms  
Would love to be around you, just be around you  
I know you might think I'm just one more  
But all I'm really asking for is a chance to  
Just to make you happy baby Never leave you lonely I'd never make you blue  
There's not a thing that I would do that I wouldn't do for you  
I'd give you the world if I could give it everything I have  
So won't you give my love a chance? I could treat you right, I'll make you have good dreams at night  
I could be good for you, I could be good so good so good so good  
Treat you kind, I'll change the way you feel inside  
I could be good for you, hey so good for you, so good for you Baby I got lots of ways to keep a smile on your  
face  
I'll show you, let me show you, when I hold you in the night  
You'll see that what I've got is what you need  
I'll show you I can make you happy baby Never give you reason to ever leave my side  
I'll keep the rain away and baby I'll keep you satisfied  
Won't be anyone who'll love you better than the way I can  
So won't you give my love a chance? Cause I could treat you right, I'll make you have good dreams at night  
I could be good for you, I could be good so good so good so good  
Treat you kind, I'll change the way you feel inside  
I could be good for you, hey yeah So if you're thinkin' 'bout love, won't you think about me?  
If you're needing someone I would love to be the one  
You come to for the love that you need Never leave you lonely I'd never make you blue  
There's not a thing that I would do that I wouldn't do for you  
I'd give you the world if I could give it everything I have  
So won't you give my love a chance? I could treat you right, I'll make you have good dreams at night  
I could be good for you, I could be good so good so good so good  
Treat you kind, I'll change the way you feel inside  
I could be good for you Treat you kind, I'll change the way you feel inside  
I could be good for you, so good so good so good so good  
Treat you kind, I could be good for you  
Treat you kind, I could make you glad you're mine
