Best Beating Heart

Sing It Loud

She says Ive got the best beating heart in the world
And it makes her want to twirl around until she hits the groundI swear together weve been here before
But we never looked away
Two seats inside an empty room
(My chance to get along with you)
With one more night whats left to loseShe says Ive got the best beating heart in the world
And it makes her want to twirl around until she hits the groundWe lay with not a word to say
Alone well wait til somethings wrong
With faces pressed against the wall
(Our hands are bracing for the fall)
Lets show the world what we are about, without a fallShe says Ive got the best beating heart in the world
And it makes her want to twirl around until she hits the ground
(Twirl around until she hits the)
She says Ive got the best beating heart in the world
And it makes her want to twirl around until she hits the groundPretend this dream will never end
And time will stop again
And time will stop again(Do you believe in me, cause I believe in you x14)She says,
She says Ive got the best beating heart in the world x3
And it makes her want to twirl around until she hits the groundShe says Ive got the best beating heart in the world
(She says Ive got the best beating heart in the world)
She says Ive got the best beating heart in the world
(She says Ive got the best beating heart in the world)
She says Ive got the best beating heart in the world
And it makes her want to twirl around until she hits the ground
