Star

Left Boy

You used to be
real close to me,
you always see
it all differently,
you're wonderful
thats why I fall,
in love with you.Everytime I see you walking through my door
I adore everything about you
its nothing that you do its just you,
and i know everyhting about you
and it feels like theres nothing I can do.I guess everything flows
it comes as it goes3x
everything flows
it comes as it goesEverytime you hold my hand
I wanna' kiss you on the lips
and walk down your back with my fingertips
when you lay your head on my chest
I can feel your heart beat
press against mine
hopin' that im whats on your mind
lookin' to find a way to make you smile.You're beautiful
thats why I fall,
in love with you.
Everytime I see you walking through my door
I adore everything about you
its nothing that you do its just you,
and i know everyhting about you
and it feels like theres nothing I can do.I guess everything flows
it comes as it goes
everything flows
it comes as it goes
everything flows
it comes as it goes
everything flowsEverytime you hold my hand
I wanna' kiss you on the lips
and walk down your back with my fingertips
when you lay your head on my chest
I can feel your heart beat
press against mine

hopin' that im whats on your mind
lookin' to find a way to make you smile.
