# Gone

## The Androids

Standing up ya know she wants to talk
sittin down ya jaw is on the floor
understanding where you know she's comin from
the only words are that she wants you gone
GoneYou never really wanna say goodbyebeing with her really gets you high
underwritten by your fear of being alone
you try, oh why? you never feel that good
ooh ooh ooh ooh ooh oohShe wants you gone
ooh ooh ooh ooh ooh ooh
don't ever meddle with a girl at home
You never really wanna try addictionyou wouldn't choose to have your mind ripped out
independence wouldn't be an affliction
with all that bullshit comin from your mouth
ooh ooh ooh ooh ooh oohShe wants you gone
ooh ooh ooh ooh ooh ooh
don't ever meddle with a girl at home
She said, she said, she said itunderstanding where you know she's comin fromthe only words are that she wants you gone
