

# The Rollercoaster Ride

## Belle and Sebastian

Hey people, looking out the window at the city below  
Hey people, looking out the window, full of fun and sorrow  
Hey people, looking out the window at the city below  
Hey people, looking out the window, you'll be gone tomorrow  
The rollercoaster ride  
The rollercoaster ride  
Of all the trouble kept her inside  
Take Judy, with her bow and arrow, she's a mastermind  
Too frumpy for the teenage population of her time  
Car coat, she has a quilted jacket with a hood if it rains  
Big pockets for the pharmaceuticals she takes to fix her brain  
The rollercoaster ride  
The rollercoaster ride  
Of all the trouble kept her inside  
A puzzle, for the moment settle down to do it with him  
You're happy cause your cosy and the rain comes rattling in  
It tickles, and it's something that is very good for the skin  
You're waiting for a baby, Baby, watch the idiot running  
The rollercoaster ride  
The rollercoaster ride  
Of all the trouble kept her inside  
You're hanging from the balcony upon the riverboat glass  
You're watching with your mouth wide open for the top of the class  
She came on with the boys while you were stuck in various poses  
If you were to remove your clothes d'you think the singer would notice?  
The rollercoaster ride  
The rollercoaster ride  
Of all the trouble kept her inside
