

# Imperfection

## Wheelton

My hair's a wreck  
Mascara runs  
My feet get dirty  
And my skin burns in the sunMy lips, they bleed  
But I still sing my songs  
It takes me a minute  
To admit it when I'm wrongPretty is as pretty does  
But pretty's not my thingThis is what you get  
This is who I am  
Take me now or leave me  
Anyway you canSometimes I trip and fall  
But I know where I stand  
And if you're thinking 'bout changin' my direction  
Don't mess with imperfectionMy back is weak  
But my will is true  
Got good intentions  
But I never follow throughI say too much  
And don't know when to leave  
In case you're looking  
That's my heart there on my sleeveEgo trips and stupid slip ups  
I'm a mess butThis is what you get  
This is who I am  
Take me now or leave me  
Anyway you canSometimes I trip and fall  
But I know where I stand  
If you're thinking 'bout changin' my direction  
Don't mess with imperfectionScratched and bruised, a little used  
But baby, I work fine  
You might call me damaged goods  
But I'm one of a kindMy hair's a wreck  
No, I'm not perfect  
But I'm not the only oneThis is what you get  
This is who I am  
Take me now or leave me  
Any way you canSometimes I trip and fall  
But I know where I stand  
And if you're thinking about changin' my direction  
Don't mess with imperfectionThis is who I am  
And if you're thinking about changin' my direction

Don't mess with imperfection
