

Northern Country Boy

Hellsingland Underground

Moonshining on the countryside
 Tonight the drinks are on me
Old cars, good weed are passing round
 In our own VIP
 Who needs the city and the gas
 When I got you
Old friends just droppin' by again
 Like in the good old days
 Here they don't use no calendar
They don't plan two weeks ahead
 Who needs the city and the trash
 When I can see the mountains
 And the lake
 Northern Country Boy
The city made me hard and cold
 Don't wanna die a lonely man
 So I'm coming back again
 Once and always
Forever country manHey John can I borrow your car tonight
 I need to pick up our 12 step man
 He's coming out again today
 So we need to celebrate
 2 years and 20 more pounds
I really think he'll make it this time
 "Everybody here looks at me,
 I've become the local freak"
You know I never really cared about them
 Not even my family
 I'll always be the black cheap
 That's just the way it is
 Northern Country Boy
The city made me hard and cold
 Don't wanna die a lonely man
 So I'm coming back again
 Once and always
Forever country manI wanted to tear this town apart
 Send in the artillery
 Bomb the hell out of everyone around
 Everyone who weren't like me

But now I've found that no one is
So why even bother to even try
Forever country man
Forever country man Northern Country Boy
The city made me hard and cold
And I remember how you said
You would stay here 'til the end
Once and always
Forever country man
