

All I Know

Dive

I've never felt so wanted
I've never been so scared
I've never felt so useless
Or been so unprepared I woke up from a nightmare
It's running through my head
I feel like breaking out
I feel like reaching out You're all I know
You're all I Know
When there's nowhere left to go
You're all I know I never worried so much
To the point where I would break
Everything is different
This feeling you can't fake And I never had something
That has felt this right
I never had so much to lose
To make me love my life I woke up from a nightmare
It's running through my head
I feel like breaking out
I feel like reaching out You're all I know
You're all I Know
When there's nowhere left to go
You're all I know You're all I know (you're all I know)
You're all I Know (you're all I know)
When there's nowhere left to go
You're all I know You're all I know (you're all I know)
You're all I Know (you're all I know)
When there's nowhere left to go
You're all I know
