Shadow Man

Spencer Day

Anywhere that I try to run
My shadows runnin too
Anytime that I find the sun
He clouds my sky of blue
Any place that I go to find a little piece of mind
You can bet that my shadow man is never far behindWhether its day or night
Whether I flee or fight
He is as constant as the dark side of the moonHes always haunting me
Until I learn to be with him
Hell never let me be
So Ill find the door and turn the key
Ill step into the darkness
And Ill set my shadow freeEveryone got a dirty secret somewhere deep inside
Everyone got a Jeckyll hidden underneath their Hyde
We take a look at our past and all the monsters we became
We been hidin in the shadow and the shadow is to blameWhether its day or night
Whether I flee or fight
He is as constant as the dark side of the moonHes always haunting me
Until I learn to be with him
Hell never let me be
So Ill find the door and turn the key
Ill step into the darkness
And Ill set my shadow free
Step into the darkness and Ill set my shadow free
Step into the darkness and Ill set my shadow free
