

One More Time

[Donna Hughes](#)

I dont know
Where or when it was over
And Ill try not to cry
One more time on your shoulder You were mine
And yours is all I wanted to be
In your eyes
I found all I wanted to see One last time, wont you hold me?
Take my hand, dance with me slowly
Tonight Ill be yours if only
One more time We were wild
Every moment we longed to be together
We shared our dreams
And a faithful promise of forever What once was love has faded into memories
And closes like a door
All this time I needed you and something changed
I dont need you anymore One last time, wont you hold me?
Take my hand, dance with me slowly
Tonight Ill be yours if only
One last time, one more time
