

My Kind

Elvis Perkins

Step from the dark bright ocean
Cradled by the interior wave
Under the song so long time gone
Come outnumber the days I have waited
So many suns
Erased them
So grey-faced
I have faced them
League upon league
I have turned them
Awaiting my kind
My kind
My kind of girl
I conjure you
And you produce me
An off-white heir
for my vanity
Come down from the beams
Stardust M'am
Make her my kind
My kind
There and then
Wide ocean end
Break into another world
If tomorrow I'm gone
I know you'll carry on
And me out on a radio wave
Step, step down from the dark bright ocean
Bleed your shape where you stand
Rise from the grasses where all Earth time passes
Like a wind through the land
It's high time
Hight time
My kind
My kind of girl
My kind
My Kind
My kind
