Habit

Alexis Jordan

Your love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have itYour love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have itLove me like I'm gone out of style
Touch me like the jewel of the Nile
Run for me like a blue flame
Take me higher and higher
And higher and higher, babyI got the world inside of my palm
But it's nothing without your love
Riches and fame got to reach so old
But it's nothing without your loveMoney, but it's nothing without your love
Cars, but it's nothing without your love
Diamonds, but it's nothing without your love
Clothes, but it's nothing without your loveYour love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have itYour love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have itHold my hand like a glove
Kiss me like we're falling in love
Take me in like a deep breath
Take me higher and higher
And higher and higher, babyI got the world inside of my palm
But it's nothing without your love
Riches and fame got to reach so old
But it's nothing without your loveMoney, but it's nothing without your love
Cars, but it's nothing without your love
Diamonds, but it's nothing without your love
Clothes, but it's nothing without your loveIt's nothing without you, baby
The money, the clothes, the fame, yeah
It's nothing without you, baby, baby, baby, oh
It's nothing without you, baby
The money, the clothes, the fame, yeah
It's nothing without you, baby, baby, baby, ohI got the world inside of my palm
But it's nothing without your love

Riches and fame got to reach so old
But it's nothing without your loveMoney, but it's nothing without your love
Cars, but it's nothing without your love
Diamonds, but it's nothing without your love
Clothes, but it's nothing without your loveYour love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have itYour love is a habit
Take my body, you can have it
Reach for me, baby, grab me
Take my body, you can have it
