

Breakthrough (feat. Donnie McClurkin)

Hezekiah Walker

I told somebody I was looking for a miracle and then they go
And try to conjure up a resolution for my hang-ups
But it cannot be done
I told them what I need was a supernatural act from God
Then they looked at me like I was so crazy
Like it was too hard I've learned to lean not unto man
Because I know that he cannot
Take the pain away or make rain dissipate
Or wash my tears away I want to pray like they did in the upper room
I will not leave because I need to hear from you God
And my mission won't stop
I'm standing in the need of a breakthrough
I want to walk in Your will and be favored
No matter how long I must put in my labor God
And my mission won't stop
I'm standing in the need of a breakthrough. I told somebody I was sick in my body and they they read
Me a list of all the doctors in this pamphlet but not if they're human
What I have it doesn't require a vaccine or anything
What I need is the healing virtue of the Father not a doctor I've learned to lean not unto man
Because I know that he cannot
Take the pain away or make rain dissipate
Or wash my tears away I want to pray like they did in the upper room
I will not leave because I need to hear from you God
And my mission won't stop
I'm standing in the need of a breakthrough
I want to walk in Your will and be favored
No matter how long I must put in my labor God
And my mission won't stop
I'm standing in the need of a breakthrough. Some people try to help me out others try to pull me through
But they cannot figure out what they can't get it right
Sorry but it's not your fault- I'm in need of a breakthrough
Everybody's praying for me putting in petitions for me
Trying to keep the faith as wait for a breakthrough
Wrestle with the angels until we get a breakthrough I've learned to lean not unto man
Because I know that he cannot
Take the pain away or make rain dissipate
Or wash my tears away I want to pray like they did in the upper room
I will not leave because I need to hear from you God
And my mission won't stop

I'm standing in the need of a breakthrough
I want to walk in Your will and
Be favored
No matter how long I must put in my labor God
And my mission won't stop
I'm standing in the need of a breakthrough.
