Room

Molly Cherington

In your room, in your room
Silent man once again
The razor's song, the razor's song
Wear the mask another face
In your room, in your roomCity red, city red
Wear the mask, wear the mask
A private hell, a secret sinA friend of mine waiting for
A western man, waiting for
New kind of glory
A view of glory from this roomI only live here, I only live here
A fragile man, waiting, waiting
I only live here, I only live here
[Incomprehensible]Echoes
Echoes
Echoes
