Sleep With Me Tonight

Neil Diamond

Something in your eyes tonight
Told me to stay
It's been so long,
But to see you this wayMakes me want to hold you
Tell you that I'm sorry
Tell you that I need to
Be with you tonightBaby, won't you let me in
We tried it apart
But here we are together again
Makes me know I've missed youMakes me know I need you
Tell you how I want to
Be with you tonight
And now I finally understandHow much I've missed
You loved me once
Please, love me once again
Can I sleep with you tonight?Let's try it again
For one last time for the rest of our lives
Baby, be forgiving
What's been done is done nowLet's you and me be one
Come, sleep with me tonight
Oh, yeah
Come sleep with meAnd stay 'til tomorrow
Or maybe forever
Just stay
Come sleep with me tonightOh, yeah
Oh, yeah
Oh, yeah
Together
Come sleep with me tonight
