

# Only When I Walk Away

Justin Timberlake

Now, girl, this little game you play  
You don't stop til you go too far  
So, what's a man like me to say?  
With a bullet laying in my heart  
Bridge 1  
Damn, love  
We go from so hot to  
So cold  
What I am gonna do with all this damn love?  
Is this shit insane or insane love?  
I guess that's the way we play  
Chorus  
She loves me now, she loves me not  
She loves me now, but only when I walk away  
She loves me now, she loves me not  
She loves me now, only when I walk away  
What's that, baby, what you say?  
Cause you don't wanna light up this torch  
Cause I'm burning down all the way  
Burning down til there ain't no more  
Bridge 2  
Damn, love  
How did the sound get so  
Amped up  
Turned up inside it's this  
Damn love  
Is this shit insane or insane love?  
I guess that's the way we play  
Chorus  
Cold, so cold x2  
You should see the look on your face  
Baby, when I finish what you start  
I can't hear a word you say  
With a bullet laying in your heart  
Bridge 3  
Damn, girl  
How did this shit get out of my  
hands, love  
I laid you to rest you said  
"Damn love"  
This shit's insane it's insane love  
Ain't that the way we play  
Chorus  
You love me don't ya?  
Only when I walk away  
Hold up  
She only love me when I walk away  
Call me on the phone tell me baby please stay  
She only love me when I walk away  
Calling, running back and crying baby please stay  
X4  
She only love me when I walk away  
I said you don't get what you say.
