

Hurts

MIKA

How do we end up like this,
Under a burning sky?
Somethings are better unsaid,
It's easier to lie I'm pulling but my heart is on the wire
Don't need a thousand guards to lock me in
Doesn't take a fool to start a fire
A solitary spark and wars begin Say it's only words
And that it will get easier with time
Nothing's only words
That's how hearts get hurt I can't, I can't, I can't stop hearing
All the words you said
I can't stop hearing all the words you said
I can't stop hearing all the words you said
I can't stop hearing words
That's how hearts get hurt How did it all come to this?
We started off as friends
It makes it easy to leave
If we're strangers by the end I'm pulling but my heart is on the wire
Don't need a thousand guards to lock me in
Doesn't take a fool to start a fire
A solitary spark and wars begin Say It's only words
And that it will get easier with time
Nothing's only words
That's how hearts get hurt I can't, I can't, I can't stop hearing
All the words you said
I can't stop hearing all the words you said
I can't stop hearing all the words you said
I can't stop hearing words
That's how hearts get hurt You say It's on the words
And that it will get easier with time
Nothing's only words
That's how hearts get hurt You say it's on the words
It doesn't matter if their all so mine
Nothing's only words
That's how hearts get hurt I can't, I can't, I can't stop hearing
All the words you said
I can't stop hearing all the words you said
I can't stop hearing all the words you said
That's not using word

That's how hearts get hurt
