

Lover and Friend

Babyface

[VERSE I]

Everyday my thoughts of you
Get more and more intense
I get closer to the truth
I'm that much more convinced
That you and I were mean to be
No what or its involved
As long as you got love for me
Our problems will be solved-Section
So do you love him? no
Do you think of me? yea, yea yea
You don't want him? no
Cause you'd rather be with me
After all the shit he put your through
Why wouldn't you want to leave
Girl, I got mad love for you
Why can't you be with me [CHORUS]

I'll be your lover
I'll be your friend
I'll be your one true confident
I'll be the smile on your face
When we make love and consummate
I'll be the one good that won't let you down
I am not afraid
Afraid to love, afraid to trust
Or just communicate
I'll be your partner
I'll be your man
I'll be the kind that understands
That you got wants
And you got needs
And I got s`ponsabilities
I'll be the one good lover that's down for you
I am not afraid

Afraid to share, afraid to give or, just communicate [VERSE II]

Everyday he lies to you
Bout things that he won't say
From simple things like denying you
From asking about this day

It bothersome to think that he
Be playing you that way
You deserve much more, this I'm sure
So send him on his way-Section
Cause you don't love him? no
You always think of me? yea, yea, yea
You don't want him? no
Cause you'd rather be with me
After all the shit he put you through
It's true for you to leave
Girl, I've got mad love for you
You're supposed to be with me [CHORUS]
[Ad lib]
[CHORUS]
