# Baby Rain

## Brite Futures

One thing leads to another
And soon you've got a brother
That's how you make a baby
To drop on the world like it's raining
You're iconoclastic
You're not made of plastic
A wet flash of passion
Gains hot rash reaction
So slide out your saber
To slice off the haters
And pop-crack the champagne
'Cause you just made itRain
Make 'em run for shade
Rain
We'll go out and playDon't stop with their glances
When the clouds come take your chances
Now that you found your dreamer
Shake up that can and whipped cream her
Flip it, reverse it
Don't make it how you rehearsed it
Life's what you make it
So make it buck naked
Ride out the sunset
Stay out 'til you get wet
They can't make you stop yet
'Cause you just made itRain
Make 'em run for shade
Rain
We'll go out and playI'll wait here for you
You'll come to me
(Come to me, you'll come to me)
We'll never be aloneI never minded getting wet
For something you won't soon forget
That's how I made a baby
To drop on the world like it's rainingRain
Make 'em run for shade
Rain
We'll go out and playRain
Make 'em run for shade

Rain
We'll go out and play
