

Love Is Here

Des'ree

I hear a song
Drifting on the horizon
Melody is so sweet, so sweet
Who composed the tune? It lifts my heart higher
I sit down to retire
And hear what it has to say Love is here
I don't wanna lose it, no
The tune, it was so inspiring
It kept my body rising Absorption taking place
The melody, so lovely
The tune it was so subtle
The world's a wonderful place I see him now
The clouds begin to disperse
To reveal a wonderful presence
A presence full of love He is so lovely
Standing there, looking after me
Seeing just how I feel
The presence of love itself Love is here
I don't wanna lose it, no
The tune, it was so inspiring
It kept my body rising Absorption taking place
The melody, so lovely
The tune it was so subtle
The world's a wonderful place Love is here
I don't wanna lose it, no
The tune, it was so inspiring
It kept my body rising Absorption taking place
The melody, so lovely
The tune it was so subtle
The world's a wonderful place Love is here
Love is here
Love is here Love is here
